

## Shunt resistor 0.1 $\Omega$ for DIN rail mounting

## 7030

- Max. voltage: 500 V (between ground and terminals)
- Connection: screw terminals

## **Application**

• External shunt resistor in connection with universal AC/DC transmitter type 4179 or trip amplifier type 2231.

## **Technical characteristics**

• Max. voltage: 500 V (between ground and terminals)

Max. current: 5 AAccuracy: 0.5Max. load: 2.5 W

Connection: Screw terminalsColor: Gray with green terminals
