

THERMSCAN

**Temperature Scanner With Built-in
Facial Recognition**

ThermScan-S

Face Temperature Measuring

Facial Recognition

Fever Warning

Data Query

Face Temperature Measuring

Based on infrared thermal imaging technology, it uses imported infrared sensor and 2MP wide-angle dynamic camera to perform face recognition at a distance of 0.5m-2.2m while collecting human temperature, even if wearing mask, which can better prevent cross infection.

Facial Recognition

No need to take off mask, the face can be automatically captured for identification. The device can automatically recognize whether the person is wearing a mask, gives a voice reminder to the non-wearing mask and prohibit traffic, strengthening awareness of prevention.

Fever Warning

The device sets a high temperature warning threshold of prevention. When it detects that the temperature of a person exceeds the warning threshold, a voice alarm mechanism is immediately activated to alert the risk of infection, effectively protect the health of personnel, and effectively and control epidemics.

Data Query

The device supports the data network upload function, which can form the temperature detection data into a table, and capture the real-time portrait, upload to the background and send WeChat Push to the designated management personnel for tracking inquiry.

Aerospace Standard

Aluminum Materials

The material we use has better corrosion resistance, heat radiation and longer service life, compared with most products made of stainless steel. With craft of polishing and sandblasting oxidation, the appearance texture is greatly improved.

SAFER

Avoid Hidden Dangers

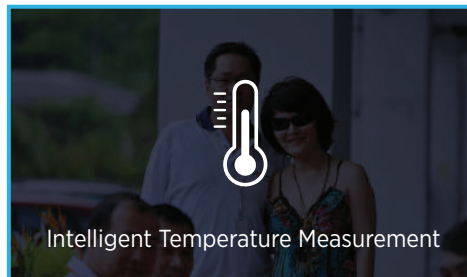

AI Face Recognition 0.5-1.3m Can Open The Floor

Non-contact, safe and reliable

FASTER

Improve Prevention And Control Efficiency

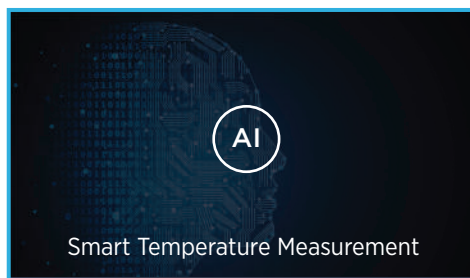

Face Recognition Traffic Temperature Measurement

No manual secondary intervention required

SMARTER

Ai Smart Statistics

**Face + Temperature Dual Identification
Quickly Record Access Information**

Quickly record the entry and exit information and temperature information of entering and exiting personnel.

Applications

Suitable for permanent staff which need to do attendance statistics, such as community, apartments, schools, small and medium-sized enterprises, etc. It should be installed to the indoor.

Solution Value

1. Quick deployment: floor installation, electrical box, off-line testing
2. Multi check methods: thermometry, recognition + thermometry, human check + thermometry
3. Non-contact: up to 1.3m
4. Record: single device can store 30,000 records
5. Information binding: face captured picture + temperature information real-time recording
6. Support staff attendance management, flexible shift arrangement, attendance report automatically generated.

Safety workplace SOP - Staff & Visitor Management

Registration

Staffs/Visitors make Registration

Record Traceable

Historical staffs'/Visitors' records are saved and easy to trace

Staffs/Visitors Coming

Staffs/ Visitor arrive at the office

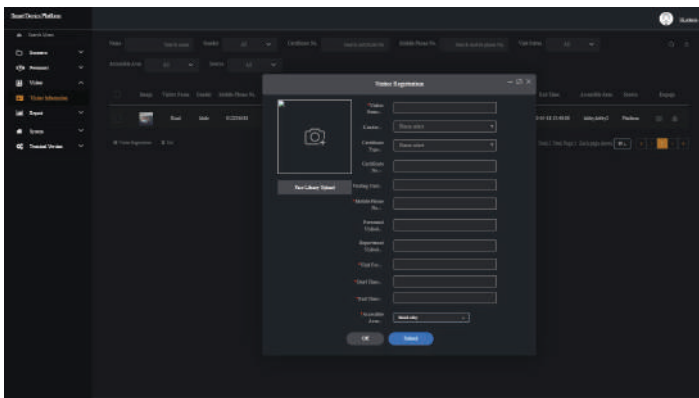

Permission Grant

Staffs/Visitors are granted with access credentials via facial recognition

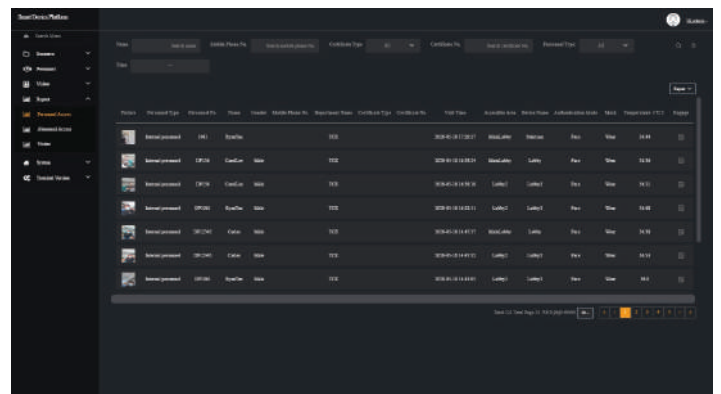

Web-Based Management Platform

Registration

PETRONAS

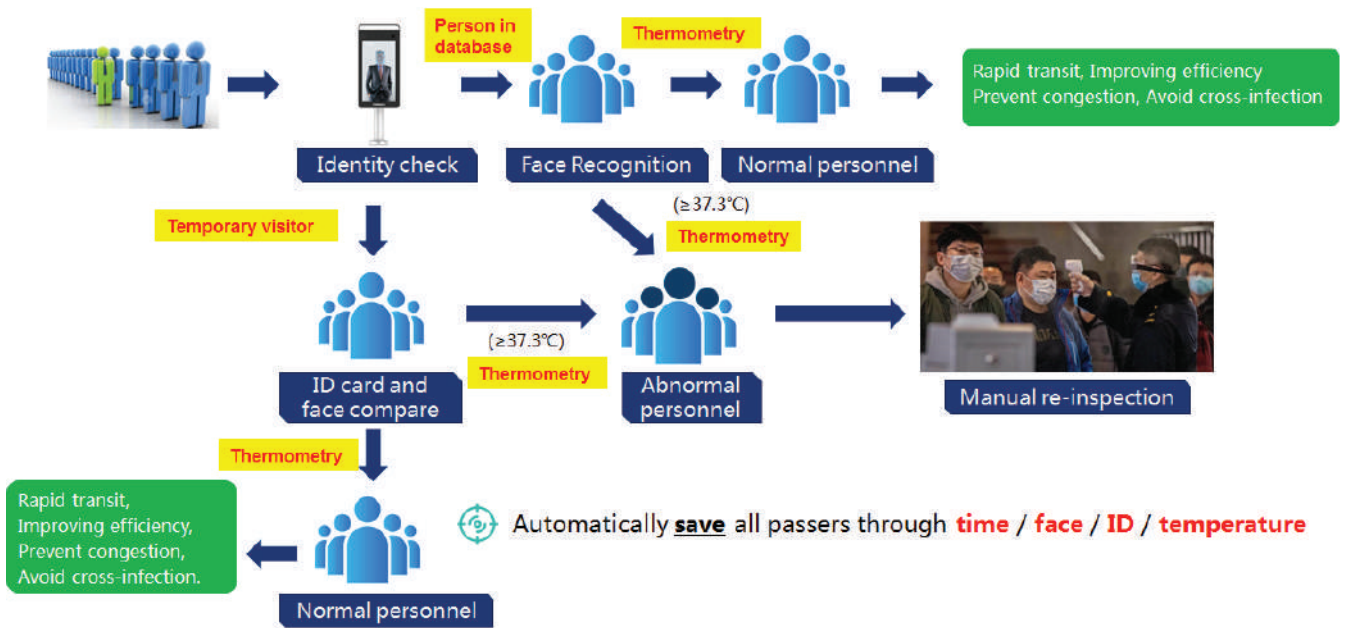

Local firm makes mass screening feasible for companies

By FocusM | May 13, 2020 9:37 pm | Featured, Malaysia

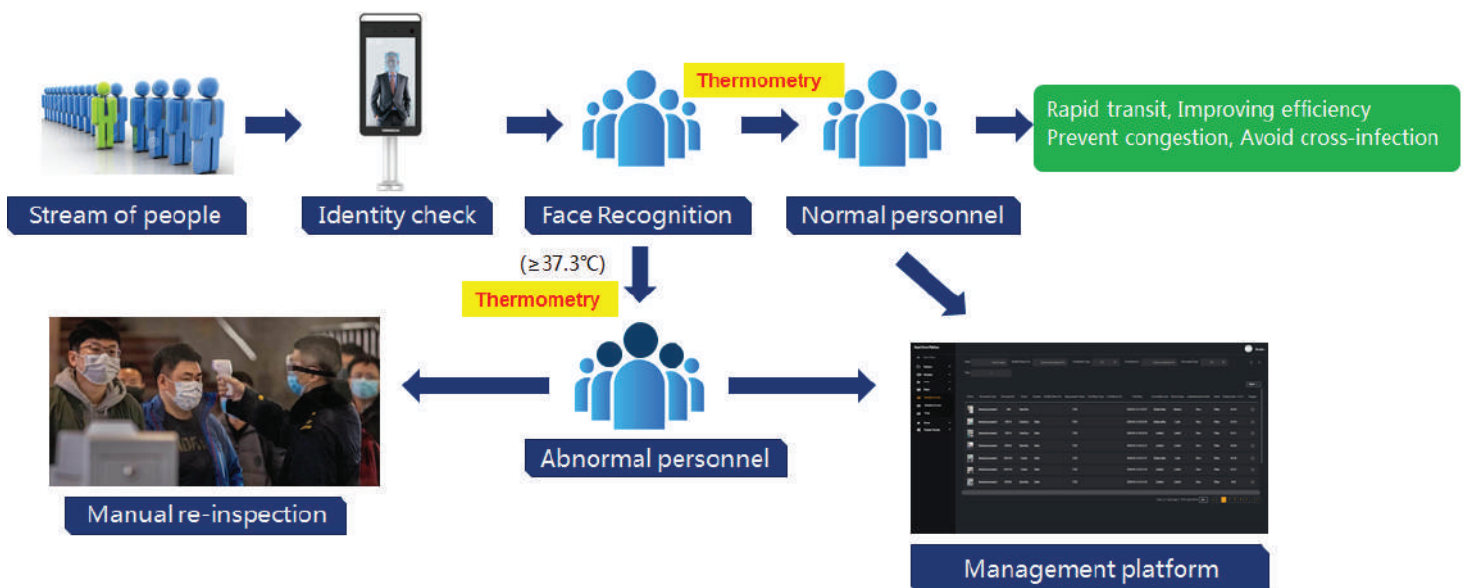

Application 1 : Identity Verification, Basic Thermometry

Recommended scenario : Access scenes requiring strict identity checks
Such as community, Office buildings, station etc.

Application 2: Facial Recognition Thermometry & Attendance

Recommended scenario : No contact for thermometry & attendance
Such as small companies, schools, hospitals etc.

ThermScan-S	
SYSTEM	
Main Processor	: MX3520
Operating System	: Embedded LINUX
RAM	: DDR3 512MB
ROM	: EMMC 8GB
SCREEN	
Resolution	: 600*1024
Dimensions	: 7 inch IPS HD LCD screen
CAMERA	
Type	: 2MP camera
Sensor	: 1/5" GC2145
Resolution	: NIR 800*600 15fps
Lens	: 2.4mm
CAMERA	
Type	: Daily camera
Sensor	: 1/2.8" SONY Starvis Back-illuminated CMOS sensor IMX307
Resolution	: Color 1920*1080 30fps
Lens	: 4.5mm
BODY TEMPERATURE DETECTION	
Measuring site	: Full screen recognition
Temperature range	: Indifferent human body temperature measurement
Temperature measuring distance	: 0.5-1.3m, 0.75m is the best
Temperature measurement accuracy	: ± 0.3°C
FACE RECOGNITION	
Detection Type	: Mask detection only
Face recognition distance	: 0.5-2.3m
Face database capacity	: Max support 30,000 faces
Face Posture	: Vertical 58°-60°, horizontal 35°
Occlusion	: Ordinary glasses and short sea retention have no effect on recognition.
Expression	: Under normal circumstances, slight expressions do not affect recognition.
Response Speed	: About 200ms
Face exposure	: Support
Local Storage	: Support storage of 25,000 records
Recognition area	: Full screen recognition
Upload Method	: TCP, HTTP, MQTT

NETWORK FUNCTIONS	
Network protocol	: IPv4, TCP/IP, HTTP
Interface protocol	: Private protocol
Security Mode	: Authorized password
Event linkage	: Voice broadcast, Abnormal event upload to the platform
System Upgrade	: Support remote upgrade
ACCESSORIES	
Supplementary light	: IR light, LED white light
Identification Module	: /
Audio out	: Built in Speaker support voice broadcast after successful recognition
Network Module	: /
INTERFACE	
Network Interface	: RJ45 10M/100M Network Adaptation
Alarm Input	: /
Alarm Output	: /
Relay Output	: Support
RS485 interface	: Support
TF card slot	: /
HDMI	: /
Reset key	: Support
Anti-disassembly switch	: /
GENERAL	
Housing	: Aluminum alloy, Ultra-white tempered glass panel, IP66
Operating Temperature	: 10 °C ~ 50 °C
Working humidity	: 10% -90% Non-condensing
Storage Temperature	: -40 °C ~ 70 °C
Storage humidity	: 5% -95% Non-condensing
Protection Level	: /
Power Supply	: DC12V
Power dissipation (maximum)	: ≤ 12 W
Dimensions (mm)	: 219 (W) * 111 (H) * 21.5 (T)
Bracket size (mm)	: Ø 33*189
Installation Method	: Desktop installation/ Floor installation / Gate machine installation/ Column installation/ Wall installation
